South – runs parallel with Highway J – Walworth County

Spectators – view all along start and first two turns. When runners are out of sight, walk south through the tree line. Runners will pass through at 5-6:30 minutes. The farther west you stand, the better viewing. You can see both the entrance and exit of the cornfield. Viewing then becomes difficult as the runners traverse challenging, rough terrain with hills. The finish is a long, long straight path with clear viewing to the chute. Please stand back near the concession building. Thank you for visiting Timber-lee.
